

Local Businesses Taking Action in Sustainability

Panelist Projects:

Chemical-Free Equipment & Green Cleaning: Hear from Billy McGrail from Kleenmark about reducing their environmental impact across their portfolio through the use of ECH2O chemical-free cleaning equipment and environmentally preferable cleaning products. Hear how EcoLogo- and Green Seal-certified chemicals help support safer cleaning practices and how these sustainability commitments are integrated into client relationships and business reviews.

Electric Scooter: Learn from Lauren Brahm, Interior Design Project Specialist at EUA, about how one of her colleagues turned to an electric scooter for transportation between numerous construction site visits. Learn how a simple shift in transportation helped reduce resource use and provided a practical, lower-impact alternative for getting around on the job.

Waste Diversion: Adam Schmidt, Business Planning Lead at Midwest Solar Power, will share how he helped establish an environmental stewardship team and its efforts to divert office and jobsite waste from the landfill. Learn how a waste audit revealed hidden opportunities and clarified obstacles to waste diversion, helping the team increase its waste diversion rate by 15%.
